Work Experience

Founding Product Designer — Stealth AI Startup **Dec 2025 - Present**

- **Leading end to end product design** across AI powered SaaS experiences, from concept exploration to high fidelity execution.
- **Designing scalable user workflows**, onboarding experiences, and platform interactions for both internal and customer facing products.
- **Collaborating directly with founders and engineers** to shape product strategy, prioritize features, and rapidly iterate in a fast moving startup environment.
- **Creating Design systems, wireframes, and prototypes** with business goals and technical feasibility.
- **Building and maintaining consistent visual and interaction patterns** to support scalable product growth.

UX Designer — Sanas AI **Jan 2025 - Sep 2025**

- **Leading end to end product design** across AI powered SaaS experiences, from concept exploration to high fidelity execution.
- **Designing scalable user workflows**, onboarding experiences, and platform interactions for both internal and customer facing products.
- **Collaborating directly with founders and engineers** to shape product strategy, prioritize features, and rapidly iterate in a fast moving startup environment.
- **Creating Design systems, wireframes, and prototypes** with business goals and technical feasibility.
- **Building and maintaining consistent visual and interaction patterns** to support scalable product growth.

Sr. UX Designer — CodeCraft Technologies **Oct 2019 - Dec 2024**

- Led end-to-end UX/UI delivery across fintech, logistics, healthcare, and energy platforms.
- Owned UX strategy, interaction design, and scalable UI systems across web and mobile.
- Facilitated stakeholder workshops to align business goals with user needs.
- Mentored junior designers and established UX best practices.

Client Engagement: Enphase Energy

- Designed UX for solar energy management products, including Homeowner App, IQ PowerPack, and Envoy Gateway.
- Redesigned network reconnection flow, reducing support calls (~30%) and setup time (~40%).
- Simplified complex system data through clear IA, visual hierarchy, and guided workflows.

Sr. Visual Designer — Gaian Solutions — Feb 2019 - Oct 2019

- Defined and maintained visual design standards across digital products.
- Supported UX research, prototyping, and usability testing.
- Delivered stakeholder-ready concepts aligned with brand and usability goals.

UI Designer — Robosoft Technologies — Jul 2015 - Jan 2019

- Designed UI/UX for web and mobile products across media and banking domains.
- Created wireframes, prototypes, and design systems in collaboration with developers.

Projects

The Sanas Help Center Transformation — 30 Days

- Re-architected content structure and navigation.
- Increased article views ~30% and reduced basic support tickets ~25%.

Seamless Onboarding for Sanas AI — 31 Days

- Designed onboarding supporting 500K+ users in 6 months.
- Improved activation, engagement, and retention through iterative optimization.

Enphase Envoy Network Reconnection Redesign — 61 Days

- Built a guided, user-friendly reconnection flow.
- Reduced installer visits and operational support costs.
